

California OES Weather Threat Briefing

Tuesday, August 6, 2019
9:00 AM PDT

Day 1: Hot with moderate risk for heat related impacts across portions of the Southern Region inland valleys and deserts today. No significant weather elsewhere.

National Weather Service
Western Region Headquarters
Regional Operations Center
Salt Lake City, UT

WEATHER KEY POINTS

08/06/19 - 08/12/19

Tuesday-Wednesday

- Cooling trend begins today and continues into Wednesday, with areas of Moderate heat risk in the Southern Region, as well as parts of the San Joaquin Valley.
- Warm, breezy, and dry conditions will continue to produce elevated fire weather concerns for portions of the Inland areas with locally gusty onshore winds this week.

Thursday-Monday

- Cooling trend toward near normal temperatures will occur into mid-week.
 - Moderate heat impacts expected to continue in portions of the San Joaquin Valley and inland valleys and desert portions of the Southern Region.
- Very slight chance for isolated thunderstorms over the high Sierra through Saturday.
- Cooling trend continues Thursday-Saturday, with moderate heat risk mainly confined to Southern Region.
- Warming trend may begin next Monday.
